

Little Knellies

Nursery @ The Abbey

Fairy Houses

This is a great activity that you can hang out in your garden, hide in a secret spot somewhere, give to a friend or keep somewhere special. You can create these however you want and add your own ideas or make them bigger.

You will need:

- Lolly Sticks
- Glue
- Paint
- Paint brush
- Coloured card
- Paper heart doilies or card
- Scissors
- Pens
- Decorative Paper
- Gogley eyes

1. Measure how much decorative paper you need to cover your cardboard tube - you can do this by rolling the paper around the tube and then cutting off the excess. You can now glue to the tube.
2. Using paper scraps, you can cut out simple details for your fairy house such as the windows, doors or anything else you want to put on there. You could use the scrap pieces from earlier.
3. Then, you need to stick on the cupcake case roof – you can add more than one case to make it thicker or give it a ruffled edge.
4. You can then add a tiny chimney by rolling up some of the scrap paper from earlier into a tube and sticking it on the roof.
5. Leave to completely dry
