

Leaf People

This is a great activity where you get to go and explore the great outdoors, go on a leaf hunt and then make an amazing piece of art. You don't have to use just leaves, you could use; twigs, feathers, bark – anything you can find.

You will need:

- Materials from nature
- Card
- Glue
- Googly eyes
- Pens

1. First, you need to go on a nature hunt and collect your materials – make sure they are dry.
2. Then, you need to create your leaf people by arranging your finds and then stick them to the piece of card.

3. You can then add googly eyes if you want and draw on their other features.

You could also try creating other collages from nature or create creatures such as fairies, trolls and elves.
